DETAILED ACTION

This is in response to amendment filed on 1/12/06 in which claims 1-26 are pending. The applicant's amendments have been fully considered therefore this case is in condition for allowance.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: reconfiguring a digital signal processor to take into account the narrowband interference; backtracking over previously decoded portions of the transmission; and decoding the transmission using the reconfigured digital signal processor as recited in claim 1. A second control and information line coupled to the sequential decoder, the second control and information line providing configuration and operational information of the sequential decoder as recited in claims 15 and 22. A decoder coupled to the analog-to-digital converter and configured to: select a first state; calculate a performance metric; compare the performance metric with a predetermine threshold; and if the performance metric exceed the predetermined threshold, then backtrack through the symbols as recited in claim 23.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
